

**REMARKS**

This paper is filed in response to the Office Action mailed June 28, 2006.

Claims 23-34, 58-71, and 74-79 are pending in this application. Claims 23-34, 58-71, and 74-79 were rejected under the judicially created doctrine of obviousness-type double patenting over U.S. Patent No. 6,256,011 to Culver (hereinafter referred to as "Culver"), the parent of the present application. In response to this rejection, Applicant submits herewith a Terminal Disclaimer to Culver. Applicant respectfully requests the Examiner withdraw the rejection of claims 23-34, 58-71, and 74-79.

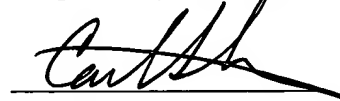

**CONCLUSION**

Because the only rejection of the claims in the Office Action was based on non-statutory double patenting, and because Applicant has submitted a Terminal Disclaimer to overcome the rejection, Applicant respectfully submits that all claims are in condition for allowance.

Should the Examiner have any comments, questions, or suggestions of a nature necessary to expedite the prosecution of the application, or to place the case in condition for allowance, the Examiner is courteously requested to telephone the undersigned at the number listed below.

Respectfully submitted,
